“Ultimate III” LED Helmet Light

- Power: 50 Lumens
- Lamp: Shock Resistant 1 Watt LED
- Batteries: 3 AA A
- Intrinsically safe (Class1- Div.1)
- Waterproof
- LED Bulb Life: 10,000 hours
- Burn Time: 60+ hrs (low)
- Weight: 3.7oz (105 g)

Cat. No. 7625

The #1 helmet light for Industrial Workers & Utility Linemen - Extremely Lightweight, Rugged, Adjustable Beam, Waterproof & Four Light Modes (High - Medium - Low - Emergency Flash). Utilizing a unique combination of a one-watt “Superbrite LED” and proprietary optics, the ULTIMATE III is optimal for both localized needs and long distant spotting requirements (*in fact, it is so powerful on the high setting that it can be used as a flashlight*). Realizing the need for varying amounts of light for different conditions, the ULTIMATE III is equipped with three brightness levels and a blinking emergency/signaling mode. We guarantee that you will find this to be the best helmet light or we will refund your money! We also provide an unmatched **5 - Year Full Warranty** (batteries not included).

PoleTacker

The PoleTacker provides a simple, durable and very effective means in maintaining pole transportation safety. Utilizing super bright, long lasting (100,000 hrs. of heavy operation) LED, the PoleTacker has a 5-7 mile visibility range. Easy to mount, simply screw it in with the heavy duty super secure “T-Screw” and you are on your way.

Additional features include: 4 optional flash patterns - Comet, Single, Steady Burn and Flare Flicker. LED is encapsulated for vibration and moisture resistance with dual front/angled reflectors. System is powered by three alkaline “C” batteries, providing 100+ hours of continuous operation.

- Red or Amber LED Light
- Four Flash Patterns
- LED Rating: 100,000 hours
- Batteries Three Alkaline “C”s
- Battery Run Time: 100+ Hours

Cat. No. 7032-R (Red)

Cat. No. 7032-A (Amber)
