

Roboimpacts®

Unmatched in reliability, power, performance and durability, Roboimpacts are standard issue items on numerous Military Vehicles worldwide.

“Terrific tool. I use these (Roboimpacts®) on my entire convoy. They save lives.” —Master Sergeant US Marine Corps

MVR Kit - Multiple Vehicle Roboimpact Kit

Kit Includes:

- Military Roboimpact with Quick-Connect Plug
- Military Robopak Battery and Charging System
- Nato / Slave Connection

Robopak & AC Charger

Roboimpact

Nato Plug with Quick-Connect Plug

Ultimate in Reliable, Portable & Powerful Impacting Capability

The MVR Kit is designed to provide two sources of DC power for your Roboimpact:

Military Robopak Battery (MRB) is a super amp./hr., light weight, portable battery system. MRB features include military grade heavy-duty all weather high impact plastic case, durable “O” rings, shoulder strap, quick-connect power and charging receptacle, and go-no-go LED status indicator. The MRB is charged by a state-of-the-art 3 stage charging system that is vibration and waterproof.

Nato/Slave Connection provides a quick-connect power source from a Slave Receptacle to your Roboimpact.
